

AUTOMA Limit-Switch-Box - Series IP2M01

Compact Limit-Switch-Box

Direct mounting without bracket on actuators
For actuator spacing 80x30mm
Polyamide box PA6

FLEXIBILITY.....

- » mechanical or proximity switches
- » 2-wire or 3-wire
- » up to two position feedbacks
- » connection for up to two solenoid valves
- » venting screws against condensation water
- » can be brand label

EFFICIENCY.....

- » short assembly time
- » storage friendly
- » excellent value
- » space saving

FEATURES.....

- » developed and manufactured in Germany
- » compliant with the new EC machinery directive 2006/42/EG
- » integrated visual OPEN-CLOSE indicator
- » captive screws and sealings
- » vibration-resistant, with additional retention screws
- » ambient temperature -20°C to +80°C
- » dimension 115 x 65 x 55mm
- » IP67 according to DIN EN 60529
- » Cable gland M20 x 1.5
